Universal design (UD) for learning involves creating course materials that are usable by all people without needing to make accommodations to your course design. Join us in this workshop facilitated by Dr. John Crow, from the FSU Office of Distance Learning (ODL), to learn about the principles and practice of universal design, how to make your Canvas site and digital course content accessible, and how tools like Bb Ally help make the process easier.

**Time:** 3:00 pm--4:30 pm
