What steps can you take now to ensure you have a successful online semester? Find time to work on the following: think through your course objectives & learning outcomes, set up your Canvas site, and create course activities and assessments. Join us for 4 virtual (Zoom) sessions over a two-week period where you'll get advice from experts, time to design your online course, and a chance to swap feedback & ideas with your peers. Come prepared with either a course in development or a course that needs a makeover.
